SEC. 1017. BURDENSHARING POLICY AND REPORT.

(a) POLICY.—It is the policy of the United States that the North Atlantic Treaty Organization (NATO) allies should assist the United States in paying the incremental cost incurred by the United States for maintaining members of the Armed Forces in assignments to permanent duty ashore in Europe solely for performing United States obligations for support of NATO.

(b) IMPLEMENTATION.—The President shall take all necessary actions to ensure the effective implementation of the burdensharing policy set forth in subsection (a).

(c) REPORT.—The Secretary of Defense shall include in the annual burdensharing report required by section 1002(d) of the Department of Defense Authorization Act, 1985 (22 U.S.C. 1928 note) the following matters:

of NATO and an analysis of the cost of providing and maintaining such resources and personnel in such assignment primarily for that purpose.

SEC. 1018. REVIEW AND REPORT REGARDING DEPARTMENT OF DEFENSE PROGRAMS RELATING TO REGIONAL SECURITY AND HOST NATION DEVELOPMENT IN THE WESTERN HEMISPHERE.

(a) FINDINGS.—Congress makes the following findings:

(1) The political environment in the Western Hemisphere has been characterized in recent years by significant democratic advances and an absence of international strife; but democracy is fragile in some nations of the region.

(2) It is desirable for the Department of Defense to perform a positive role in influencing regional armed forces to make positive contributions to the democratic process and to domestic development programs.

(3) Congress receives a number of annual reports relating to specific authorities granted to the Secretary of Defense under title 10, United States Code, such as the authorities relating to the conduct of bilateral or regional cooperation programs under section 1051, participation of developing countries in combined exercises under section 2110, and the training of special operations forces with friendly forces under section 2011.

(4) The annual reports are replete with statistics and dollar figures and generally lacking in substance.

(5) Congress does not receive annual reports with respect to other authorities of the Secretary of Defense, such as that relating to Latin American cooperation under section 1050 of title 10, United States Code.

(6) Testimony before Congress, including in particular the testimony of the Commander in Chief, United States Southern Command, and the Commander in Chief, United States Atlantic Command, has emphasized the conduct of a large number of complementary programs under the leadership and supervision of those two commanders to foster appropriate military roles in democratic host nations and to assist countries in developing forces properly trained to address their security needs, including needs regarding illegal immigration, insurgencies, smuggling of illegal arms, munitions, and explosives across borders, and drug trafficking.

(7) Most of the programs referred to in paragraph (6) provide excellent and often unique training and experience to the United States forces involved.

(8) The expansion of the military-to-military contact program to the Western Hemisphere will provide another tool to encourage a democratic orientation of the defense establishments and military forces of countries in the region.

(9) There is a need to conduct a comprehensive review of the several authorities in title 10, United States Code, for the Secretary of Defense to engage in cooperative regional security programs with other countries in the Western Hemisphere in order to determine whether the authorities continue to be appropriate and necessary, particularly in the light of the changed circumstances in the region.

(10) There is a need to conduct a comprehensive review of the various programs carried out pursuant to such authorities to ensure that such programs are designed to meet the needs of the host nations involved and the regional objectives of the United States.

(11) There is a need to assess the strengths and weaknesses of the various regional security organizations, defense forums, and defense education institutions in the Western Hemisphere in order to identify any improvements needed to harmonize the defense policies of the United States and those of friendly nations of the region.

(b) REPORT REQUIRED.—Not later than May 1, 1995, the Secretary of Defense, shall—

(1) carry out a comprehensive review and assessment of the matters referred to in paragraphs (9), (10), and (11) of subsection (a); and

(2) after consultation with the Chairman of the Joint Chiefs of Staff and the commanders of the combatant commands responsible for regions in the Western Hemisphere, submit to the Committees on Armed Services of the Senate and House of Representatives a report on regional defense matters.

(c) CONTENT OF REPORT.—The report shall contain a detailed and comprehensive description, discussion, and analysis of the following matters:

(1) The Department of Defense plan to support United States strategic objectives in the Western Hemisphere.

(2) The external and internal threats to the national security of the nations of the region.

(3) The various regional security cooperative programs carried out by the Department of Defense in the region in 1994, including training and education programs in the host nations and in the United States and defense contacts set forth on a country-by-country basis, the statutory authority, if any, for such programs, and the strategic objectives served.

(4) The various regional security organizations, defense forums, and defense education institutions that the United States maintains or in which the United States participates.

(5) An assessment of the contribution that such programs, defense contacts, organizations, forums, and institutions make to the advancement of regional security, host nation security and national development, and the strategic objectives of the United States.

(6) The changes made or to be made in the programs, organizations, forums, and institutions as a result of the comprehensive review.

(7) Any recommended legislation considered necessary to improve the ability of the Department to achieve its strategic objectives.

(d) CLASSIFICATION OF REPORT.—The report shall be submitted in an unclassified form and may, if necessary, have a classified supplement.

SEC. 1019. PAYMENTS-IN-KIND FOR RELEASE OF UNITED STATES OVERSEAS MILITARY FACILITIES TO NATO HOST COUNTRIES.

(a) FINDINGS.—Congress makes the following findings:

(1) The United States has invested $6,500,000,000 in military infrastructure in North Atlantic Treaty Organization (NATO) countries.

(2) As part of an overall plan to reduce United States troop strength in Europe from 323,432 in 1987 to 100,000 by the end of 1996, the Department of Defense plans to close or reduce United States military presence at 867 military sites overseas.

(3) Most of the overseas military sites announced for closure are in Europe where the United States has already closed 434 such sites.

(4) When the United States closes military sites in Europe, the United States brings the military personnel home but leaves buildings, roads, sewers, and other real property improvements behind.

(5) Some allies have agreed to pay the United States for the residual value of the real property improvements left behind.

(6) Although the United States military drawdown has been rapid since 1990, European allies have been slow to pay the United States the residual value of the sites released by the United States.

(7) As of 1994, the United States has recouped only $33,300,000 in cash, and most of that was recovered in 1989.

(8) Although the United States has released to Germany over 60 percent of the military sites planned for closure by the United States in that country and the current value of United States facilities to be returned to the German government is estimated at approximately $2,700,000,000, the German government has budgeted only $25,000,000 for fiscal year 1994 for payment of compensation for the United States investment in such improvements.

(b) POLICY.—It is the sense of Congress that—

(1) the President should redouble efforts to recover the value of the United States investment in the military infrastructure of NATO countries;

(2) the President should enter into negotiations with the government of each NATO

host country with a presumption that payments to compensate the United States for the negotiated value of improvements will be made in cash and deposited in the Department of Defense Overseas Military Facility Investment Recovery Account;

(3) the President should enter into negotiations for payments-in-kind only as a last resort and only after informing the Congress that negotiations for cash payments have not been successful; and

(4) to the extent that in-kind contributions are received in lieu of cash payments in any fiscal year, the in-kind contributions should be used for projects which are identified priorities of the Department of Defense.

(c) REQUIREMENTS AND LIMITATIONS RELATING TO PAYMENTS-IN-KIND.—(1) Subsection (e) of section 2921 of the National Defense Authorization Act for Fiscal Year 1991 (10 U.S.C. 2687 note) is amended—

(A) by inserting "(1)" after "NEGOTIATIONS FOR PAYMENTS-IN-KIND.—";

(B) by striking out "a written notice" and all that follows and inserting in lieu thereof "to the congressional defense committees (and one additional copy to each of the Subcommittees on Defense of the Committees on Appropriations of the Senate and the House of Representatives) a written notice regarding the intended negotiations."; and

(C) by adding at the end the following new paragraph:

"(2) The notice shall contain the following:

"(A) A justification for entering into negotiations for payments-in-kind with the host country.

"(B) The types of benefit options to be pursued by the Secretary in the negotiations.

"(C) A discussion of the adjustments that are intended to be made in the future-years defense program or in the budget of the Department of Defense for the fiscal year in which the notice is submitted or the following fiscal year in order to reflect costs that it may no longer be necessary for the United States to incur as a result of the payments-in-kind to be sought in the negotiations.".

(2) Such section is amended by adding at the end the following new subsection:

"(h) CONGRESSIONAL OVERSIGHT OF PAYMENTS-IN-KIND.—(1) Not less than 30 days before concluding an agreement for acceptance of military construction or facility improvements as a payment-in-kind, the Secretary of Defense shall submit to Congress a notification on the proposed agreement that contains the following matters:

"(A) A description of the military construction project or facility improvement project, as the case may be.

"(B) A certification that the project is needed by United States forces.

"(C) An explanation of how the project will aid in the achievement of the mission of those forces.

"(D) A certification that, if the project were to be carried out by the Department of Defense, appropriations would be necessary for the project and it would be necessary to provide for the project in the next future-years defense program.

"(2) Not less than 30 days before concluding an agreement for acceptance of host nation support or host nation payment of operating costs of United States forces as a payment-in-kind, the Secretary of Defense shall submit to Congress a notification on the proposed agreement that contains the following matters:

"(A) A description of each activity to be covered by the payment-in-kind.

"(B) A certification that the costs to be covered by the payment-in-kind are included in the budget of one or more of the military departments or that it will otherwise be necessary to provide for payment of such costs in a budget of one or more of the military departments.

"(C) A certification that, unless the payment-in-kind is accepted or funds are appropriated for payment of such costs, the military mission of the United States forces with respect to the host nation concerned will be adversely affected.".

SEC. 1088. BOSNIA AND HERZEGOVINA.

(a) PURPOSE.—To express the sense of Congress concerning the international efforts to end the conflict in Bosnia and Hercegovina.

(b) STATEMENTS.—The Congress makes the following statements of support:

(1) The Congress supports the use of international sanctions in the form of arms and economic embargoes imposed by the United Nations Security Council in appropriate circumstances.

(2) The Congress supports the imposition of an arms and economic embargo on the Government of Iraq by United Nations Security Council resolution 661 of August 6, 1990 to bring about compliance with a number of conditions, including in particular an end to Iraq's nuclear weapons program.

(3) The Congress supports the imposition of an arms, petroleum and economic embargo on Haiti by United Nations Security Council resolutions 875 of October 16, 1993 and 917 of May 17, 1994 to bring about compliance with the Governors Island Agreement.

(4) The Congress supports the imposition of an arms and civil aircraft embargo on Libya pursuant to United Nations Security Council resolution 748 of March 31, 1992 in order to convince Libya to renounce terrorism.

(c) Findings.—The Congress makes the following findings:

(1) The United States took the lead in the United Nations Security Council to impose international sanctions in the form of arms and economic embargoes on Iraq, Haiti, and Libya.

(2) The security of the Republic of Korea with whom the United States has a mutual defense treaty and on whose territory there are more than 38,000 members of the United States Armed Forces is a vital interest of the United States.

(3) Should negotiations fail, the imposition of sanctions by the United Nations Security Council on North Korea, which would require the affirmative vote or abstention of China, Russia, Britain, and France, may be essential to stop North Korea's nuclear weapons development program and to end a nuclear threat to the Republic of Korea and Southeast Asia.

(4) The effective enforcement of sanctions on North Korea, once imposed by the United Nations Security Council, would require the cooperation of China, Russia, and Japan as well as other allies, including Britain and France, both permanent members of the United Nations Security Council.

(5) The United States voted for the international arms embargo imposed by United Nations Security Council resolution 713 of September 25, 1991 that was imposed on Yugoslavia.

(6) The imposition of the United Nations arms embargo on September 25, 1991 has not served to end the conflict in Bosnia and Hercegovina, has provided a battlefield advantage to the Bosnian Serbs, who possess artillery, tanks, and other weapons left behind by the former Yugoslav Army or provided by Serbia and Montenegro, and has deprived the Government of Bosnia and Hercegovina from acquiring the adequate means of defending itself and its citizens.

(7) Our NATO allies have committed ground forces to the United Nations Protection Force (UNPROFOR) in former Yugoslavia. At the present time France has 5,518 troops, Britain 3,435, the Netherlands 2,073, Canada 2,037, Turkey 1,696, Spain 1,417, and Belgium 1,000. Our NATO allies have thus far sustained 49 deaths and 936 wounded as a result of their participation in UNPROFOR.

(8) For the first time the so-called "contact group" composed of representatives of the United States, Russia, France and Britain is moving toward a unified position of using an incentives and disincentives "carrot and stick" strategy to bring about a peaceful settlement of the conflict in Bosnia and Hercegovina.

(d) It is the sense of the Congress that the United States should work with the NATO Member nations and the other permanent members of the United Nations Security Council to endorse the efforts of the contact group to bring about a peaceful settlement of the conflict in Bosnia Hercegovina, including the following:

(A) the preservation of an economically, politically and militarily viable Bosnian state capable of exercising its rights under the United Nations Charter as part of a peaceful settlement, the lifting of the United Nations arms embargo on the Government of Bosnia and Hercegovina so that it can exercise the inherent right of a sovereign state to self-defense;

(B) if the Bosnian Serbs, while the contact group's peace proposal is being considered and discussed, attack the safe areas designated by the United Nations Security Council, the partial lifting of the arms embargo on the Government of Bosnia and Hercegovina and the provision to that Government of defensive weapons and equipment appropriate and necessary to defend those safe areas;

(C) if the Bosnian Serbs do not respond constructively to the peace negotiations, the President or his representative shall promptly propose or support a resolution in the United Nations Security Council to terminate the international arms embargo on Bosnia and Hercegovina (and the orderly withdrawal of the United Nations Protection Force and humanitarian relief personnel). If the Security Council fails to pass such a resolution, the President shall within 5 days consult with Congress regarding unilateral termination of the arms embargo on the Government of Bosnia and Hercegovina.

(1) that such actions are necessary because of the extraordinary threat posed by drug trafficking to the national security of that country, and

(2) that the country has appropriate procedures in place to protect against innocent loss of life in the air and on the ground, which shall at a minimum include effective means to identify and warn aircraft prior to the use of force.

(b) It shall not be unlawful for authorized employees or agents of the United States to provide assistance, including but not limited to operational, intelligence, logistical, technical and administration assistance, for the actions of foreign countries set forth in subsection (a), nor shall the provision of such assistance give rise to any civil action seeking money damages or any other form of relief against the United States or its agents or employees.

SEC. 1097. NORTH ATLANTIC TREATY ORGANIZATION.

(a) FINDINGS.—The Congress makes the following findings:

(1) The North Atlantic Treaty Organization has served as a bulwark of peace, security, and democracy for the United States and the members of the alliance since 1949.

(2) The unswerving resolve of the member states of the North Atlantic Treaty Organization to mutual defense against the threat of communist aggression was central to the demise of the Warsaw Pact.

(3) The North Atlantic Treaty Organization is the most successful international security organization in history, and is well suited to help marshal our cooperative political, diplomatic, economic, and humanitarian efforts, buttressed by credible military capability aimed at deterring conflict, and thus contributing to international peace and security.

(4) The threat of instability in Eastern and Central Europe, as well as in the Southern and Eastern Mediterranean, continues to pose a fundamental challenge to the interests of the member states of the North Atlantic Treaty Organization.

(5) North Atlantic Treaty Organization assets have been deployed in recent years for more than the territorial defense of alliance members; and the Rome Summit of October 1991 adopted a new strategic concept for the North Atlantic Treaty Organization that entertained the possibility of operations beyond the alliance's self-defense area.

(6) In Oslo in July 1992, and in Brussels in December 1992, the alliance embraced the deployment of North Atlantic Treaty Organization forces to peacekeeping operations under the auspices of the United Nations or the Conference on Security and Cooperation in Europe.

(7) The North Atlantic Treaty Organization should attempt to cooperate with and seek a mandate from international organizations such as the United Nations when considering responses to out of area crises.

(8) Not all members of the international community share a commonality of interests that would ensure timely action by the United Nations Security Council.

(9) The security interests of the member countries of the North Atlantic Treaty Organization must not be held hostage to indecision at the United Nations or a veto by a permanent member of the Security Council.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that—

(1) it should be the policy of the United States that, in accordance with article 53 of the United Nations Charter, the North Atlantic Treaty Organization retains the right of autonomy of action regarding missions in addition to collective defense should the United Nations Security Council or the Conference on Security and Cooperation in Europe fail to act;

(2) while it is desirable to work with other international organizations and arrangements where feasible in dealing with threats to the peace, the North Atlantic Treaty Organization is not an auxiliary to the United Nations or any other organization; and

(3) the member states of the North Atlantic Treaty Organization reserve the right to act collectively in defense of their vital interests.

SEC. 1098. LIMITATION ON OBLIGATION OF FUNDS FOR MARK-6 GUIDANCE SETS FOR TRIDENT II MISSILES.

(a) LIMITATION.—Until the certification in subsection (b) has been provided to the congressional defense committees, funds appropriated for fiscal year 1995 for the Navy may not be obligated to procure more than 14 Mark-6 guidance sets for Trident II missiles.

(b) CERTIFICATION.—Before the Secretary of Defense may obligate funds for Mark-6 guidance sets in addition to the 14 sets authorized in subsection (a), he shall certify to the congressional defense committees that failure to procure such additional units would pose an unacceptable risk to the long-term readiness and reliability of the Trident II missile program.

SEC. 1099. MILITARY PLANNING FOR THE SIZE AND STRUCTURE OF A FORCE REQUIRED FOR A MAJOR REGIONAL CONTINGENCY ON THE KOREAN PENINSULA.

(a) FINDINGS.—Congress finds as follows:

(1) Whereas the Administration commissioned the Bottom-Up Review to properly size and structure the Armed Forces of the United States for the Post-Cold-War Era;

(2) Whereas the Bottom-Up Review itself cites the need for the Armed Forces of the United States to be large enough to prevail in two major regional conflicts, similar in nature to the 1991 war against Iraq, "nearly simultaneously";

(3) Whereas the Bottom-Up Review gives special consideration to a scenario that hypothesizes that the two "nearly simultaneous" conflicts would occur in Korea and the Persian Gulf;

(4) Whereas the United States sent 7 Army divisions, the equivalent of 10 Air Force tactical fighter wings, 70 heavy bombers, 6 Navy aircraft carrier battle groups, and 5 Marine Corps brigades to the Persian Gulf to fight the war against Iraq;

(5) Whereas the Bottom-Up Review asserts that the forces needed to fight two conflicts similar to that with Iraq can be drawn from a total military force of between 15 and 16 Army divisions, 20 Air Force tactical fighter wings, 184 heavy bombers, 11 active Navy aircraft carriers (along with one reserve/training carrier), and the equivalent of 12 Marine Corp brigades;

(6) Whereas the Bottom-Up Review recognizes that approximately 100,000 members of the United States Armed Forces will be stationed in Europe;

(7) Whereas the Bottom-Up Review recognizes that sizeable numbers of United States forces could be involved in peace enforcement and intervention operations at any one time;

(8) Whereas the Bottom-Up Review makes no specific recommendation as to the number of forces to be held in reserve to provide a rotation base either to relieve troops in the event one or both hypothetical conflicts result in lengthy deployments or to replace combat losses;

(9) Whereas military planners calculate that the number of United States forces needed to help defeat an invasion of South Korea by North Korea may exceed 430,000 United States military personnel;

(10) Whereas the size of the force military planners may request to help defend South Korea could exceed the levels that are consistent with the recommendations of Bottom-Up Review if the existing and future force requirements for a presence in Europe, possible peace enforcement operations, and an adequate rotation base, as well as a second regional conflict, must be fulfilled simultaneously.

(b) SENSE OF CONGRESS.—It is the Sense of Congress:

(1) that the force structure identified in the Bottom-Up Review may not be used to limit the size or structure of the force United States military commanders may request in preparation for a major regional contingency on the Korean peninsula;

(2) and that the Chairmen and Ranking Members of the House and Senate Committees on Armed Services and Chairmen and Ranking members of the House and Senate Appropriations Subcommittees on Defense should receive regular briefings from the Department of Defense of the situation on the Korean peninsula;

(3) and that the conclusions of the Bottom-Up Review should be continuously examined in light of the lessons learned from preparation for a major regional contingency on the Korean peninsula and from other military operations.

(a) FINDINGS.—The Senate makes the following findings:

(1) The closure or realignment of a major military installation can cause severe economic disruption to the host community for the installation.

(2) Communities affected by the closure of a major military installation under a base closure law dedicate significant time, effort, and resources to planning for the economic redevelopment of the installation.

(3) The Federal Government can ease the disruption caused by the closure of a military installation by working cooperatively with the host community for the installation to implement the community's redevelopment plan for the installation.

(4) In recent years, the Federal Government has not always provided sufficient assistance to communities affected by the closure of a military installation under a base closure law in the efforts of such communities to provide for the economic redevelopment of the installation.

(5) In July 1993, the President issued a five-point plan for revitalizing base closure communities which emphasized the economic recovery of communities affected by the closure of a military installation under a base closure law.

(6) In November 1993, Congress agreed to the provisions of subtitle A of title XXIX of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103–160; 107 Stat. 1909), and the amendments made thereunder, in order to implement the plan referred to in paragraph (5) and to provide other assistance to communities attempting to redevelop military installations approved for closure under a base closure law.

(7) The Secretary of Defense is accepting public comment on the guidelines for implementation of the provisions of law referred to in paragraph (6).

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the Secretary of Defense should—

(1) ensure that the regulations implementing the provisions of subtitle A of title XXIX of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103–160; 107 Stat. 1909), and the amendments made thereunder, reflect the intent of Congress that, to the maximum extent practicable, the Secretary take into consideration the redevelopment plans of affected communities when taking actions or implementing decisions on the closure of a military installation approved for closure under a base closure law;

(2) ensure that the regulations implementing such provisions reflect the intent of Congress to encourage and promote cooperation and dialogue between the Federal Government and communities affected by the closure of an installation throughout the base closure process; and

(3) develop a system of incentives or awards to encourage Department of Defense personnel to provide greater assistance to and cooperation with communities affected by the closure of an installation during the ongoing effort of revitalizing the economy of such communities.

(a) Sense of the Senate.—It is the sense of the Senate that, to the maximum extent practicable, the Senate should consider the authorization for appropriation of funds for a military construction project not included in the annual budget request of the Department of Defense only if:

(1) the project is consistent with past actions of the Base Realignment and Closure process;

(2) the project is included in the military construction plan of the military department concerned incorporated in the Future Years Defense Program;

(3) the project is necessary for reasons of the national security of the United States; and

(4) a contract for construction of the project can be awarded in that fiscal year.

(b) Views of the Secretary of Defense.—In considering these criteria, the Senate should obtain the views of the Secretary of Defense. These views should include whether funds for a military construction project not included in the budget request can be offset by funds for other programs, projects, or activities, including military construction projects, in the budget request and, if so, the specific offsetting reductions recommended by the Secretary of Defense.

SEC. 1004. TASK ORDER CONTRACTS FOR ADVISORY AND ASSISTANCE SERVICES.

(a) AUTHORITY.—

(1) IN GENERAL.—Chapter 137 of title 10, United States Code, is amended by inserting after section 2304 the following new section:

"§ 2304a. Task order contracts for advisory and assistance services

"(a) AUTHORITY TO AWARD.—(1) Subject to the requirements of this section, the head of an agency may enter into a contract for advisory and assistance services that does not procure or specify a firm quantity of services (other than a minimum or maximum quantity) and that provides for the issuance of task orders during the specified period of the contract.

"(2) Except as provided in subsection (h), the head of an agency may enter into a contract described in paragraph (1) only under the authority of this section.

"(b) LIMITATION ON CONTRACT PERIOD.—The period of a contract referred to in subsection (a), including all periods of extensions of the contract under options, modifications, or otherwise, may not exceed 5 years unless a longer period is specifically authorized in a law that is applicable to such contract.

"(c) CONTRACT PROCEDURES.—(1) The head of an agency may use procedures other than competitive procedures to enter into a contract referred to in subsection (a) only if an exception in subsection (c) of section 2304 of this title applies to the contract and the use of such procedures is approved in accordance with subsection (f) of such section.

"(2) The notice required by section 18 of the Office of Federal Procurement Policy Act (41 U.S.C. 416) and section 8(e) of the Small Business Act (15 U.S.C. 637(e)) shall reasonably and fairly describe the general scope, magnitude, and duration of the proposed contract in a manner that would reasonably enable a potential offeror to decide whether to request the solicitation and consider submitting an offer.

"(3) The solicitation shall include the following:

"(A) The period of the contract, including the number of options to extend the contract and the period for which the contract may be extended under each option, if any.

"(B) The maximum quantity or dollar value of services to be procured under the contract.

"(C) A statement of work, specifications, or other description that reasonably describes the general scope, nature, complexity, and purposes of the services to be procured under the contract.

"(4)(A) The head of an agency may, on the basis of one solicitation, award separate contracts under this section for the same or similar services to two or more sources if the solicitation states that the head of the agency has the option to do so.

"(B) If, in the case of a contract for advisory and assistance services to be entered into under the authority of this section, the contract period is to exceed 3 years and the contract amount is estimated to exceed $10,000,000 (including all options), the solicitation shall—

"(i) provide for a multiple award authorized under subparagraph (A); and

"(ii) include a statement that the head of the agency may also elect to award only one contract if the head of the agency determines in writing that only one of the offerers is capable of providing the services required at the level of quality required.

"(C) Subparagraph (B) does not apply in the case of a solicitation for which the head of an agency determines in writing that, because the services required under the contract are unique or highly specialized, it is not practicable to award more than one contract.

"(5) A contract referred to in subsection (a) shall contain the same information that is required by paragraph (3) to be included in the solicitation of offers for that contract.

"(d) ORDER PROCEDURES.—(1) The following actions are not required for a task order issued under a contract entered into in accordance with this section:

"(A) A separate notice for such order under section 18 of the Office of Federal Procurement Policy Act (41 U.S.C. 416) or section 8(e) of the Small Business Act (15 U.S.C. 637(e)).

"(B) Except as provided in paragraph (2), a competition (or a waiver of competition approved in accordance with section 2304(f) of this title) that is separate from that used for entering into the contract.

"(2)(A) When multiple contracts are awarded pursuant to subsection (c)(4), all contractors awarded such contracts shall be provided a fair opportunity to be considered, pursuant to procedures set forth in the contracts, for each task order in excess of $2,500 that is to be issued under any of the contracts unless—

"(i) the agency's need for the services ordered is of such unusual urgency that competition would result in unacceptable delays in fulfilling the agency's needs;

"(ii) only one such contractor is capable of providing the services required at the level of quality required because the services ordered are unique or so highly specialized;

"(iii) the task order should be issued on a sole-source basis in the interest of economy and efficiency because it is a logical follow-on to a task order already issued on a competitive basis; or

"(iv) the order must be placed with a particular contractor in order to satisfy a minimum guarantee.

"(B) When a task order is issued in accordance with subparagraph (A), the order shall include a statement of work that clearly specifies all tasks to be performed under the order.

"(3) A protest is not authorized in connection with the issuance or proposed issuance of a task order except for a protest on the ground that the order increases the scope, period, or maximum value of the contract under which the order is issued.

"(e) INCREASES IN SCOPE, PERIOD, OR MAXIMUM VALUE OF CONTRACT.—(1) A task order may not increase the scope, period, or maximum value of the contract under which the order is issued. The scope, period, or maximum value of the contract may be increased only by modification of the contract.

"(2) Unless use of procedures other than competitive procedures is authorized by an exception in subsection (c) of section 2304 of this title and approved in accordance with subsection (f) of such section, competitive procedures shall be used for making such a modification.

"(3) Notice regarding the modification shall be provided in accordance with section 18 of the Office of Federal Procurement Policy Act (41 U.S.C. 416) and section 8(e) of the Small Business Act (15 U.S.C. 637(e)).

"(4)(A) Notwithstanding the limitation on the contract period set forth in subsection (b) or in a solicitation or contract pursuant to subsection (c), a contract entered into by the head of an agency under this section may be extended on a sole-source basis for a period not exceeding 6 months if the agency head determines that—

"(i) the award of a follow-on contract has been delayed by circumstances that were not reasonably foreseeable at the time the initial contract was entered into; and

"(ii) the extension is necessary in order to ensure continuity of the receipt of services pending the award of, and commencement of performance under, the follow-on contract.

"(B) A contract may be extended under the authority of subparagraph (A) only once and only in accordance with the limitations and requirements of this subsection.

"(f) TASK ORDER OMBUDSMAN.—Each head of an agency who awards multiple contracts pursuant to subsection (c)(4) shall appoint or designate a task order ombudsman who shall be responsible for reviewing complaints from the contractors on such contracts and ensuring that all of the contractors are afforded a fair opportunity to be considered for task orders when required under subsection (d)(2). The task order ombudsman shall be a senior agency official who is independent of the contracting officer for the contracts and may be the agency's competition advocate.

"(g) INAPPLICABILITY TO CERTAIN CONTRACTS.—This section does not apply to a contract for the acquisition of property or services that includes acquisition of advisory and assistance services if the head of an agency entering into such contract determines that, under the contract, advisory and assistance services are necessarily incident to, and not a significant component of, the contract.

"(h) RELATIONSHIP TO OTHER CONTRACTING AUTHORITY.—Nothing in this section may be construed to limit the authority of the head of an agency to enter into single or multiple task order contracts, or single or multiple delivery order contracts, for property or services (other than advisory and assistance services) under other provisions of this chapter or under any other provision of law.

"(i) ADVISORY AND ASSISTANCE SERVICES DEFINED.—In this section, the term 'advisory and assistance services' has the meaning given such term in section 1105(g) of title 31.".

"TASK ORDER CONTRACTS FOR ADVISORY AND ASSISTANCE SERVICES

"SEC. 303H. (a) AUTHORITY TO AWARD.—(1) Subject to the requirements of this section, the head of an executive agency may enter into a contract for advisory and assistance services that does not procure or specify a firm quantity of services (other than a minimum or maximum quantity) and that provides for the issuance of task orders during the specified period of the contract.

"(2) Except as provided in subsection (h), the agency head may enter into a contract described in paragraph (1) only under the authority of this section.

"(b) LIMITATION ON CONTRACT PERIOD.—The period of a contract referred to in subsection (a), including all periods of extensions of the contract under options, modifications, or otherwise, may not exceed 5 years unless a longer period is specifically authorized in a law that is applicable to such contract.

"(c) CONTRACT PROCEDURES.—(1) An agency head may use procedures other than competitive procedures to enter into a contract referred to in subsection (a) only if an exception in subsection (c) of section 303 applies to the contract and the use of such procedures is approved in accordance with subsection (f) of such section.

"(2) The notice required by section 18 of the Office of Federal Procurement Policy Act (41 U.S.C. 416) and section 8(e) of the Small Business Act (15 U.S.C. 637(e)) shall reasonably and fairly describe the general scope, magnitude, and duration of the proposed contract in a manner that would reasonably enable a potential offeror to decide whether to request the solicitation and consider submitting an offer.

"(3) The solicitation shall include the following:

"(A) The period of the contract, including the number of options to extend the contract and the period for which the contract may be extended under each option, if any.

"(B) The maximum quantity or dollar value of the services to be procured under the contract.

"(C) A statement of work, specifications, or other description that reasonably describes the general scope, nature, complexity, and purposes of the services to be procured under the contract.

"(4)(A) An agency head may, on the basis of one solicitation, award separate contracts under this section for the same or similar services to two or more sources if the solicitation states that the agency head has the option to do so.

"(B) If, in the case of a contract for advisory and assistance services to be entered into under the authority of this section, the contract period is to exceed 3 years and the contract amount is estimated to exceed $10,000,000 (including all options), the solicitation shall—

"(i) provide for a multiple award authorized under subparagraph (A); and

"(ii) include a statement that the agency head may also elect to award only one contract if the agency head determines in writing that only one of the offerers is capable of providing the services required at the level of quality required.

"(C) Subparagraph (B) does not apply in the case of a solicitation for which the agency head determines in writing that, because the services required under the contract are unique or highly specialized, it is not practicable to award more than one contract.

"(5) A contract referred to in subsection (a) shall contain the same information that is required by paragraph (3) to be included in the solicitation of offers for that contract.

"(d) ORDER PROCEDURES.—(1) The following actions are not required for a task order issued under a contract entered into in accordance with this section:

"(A) A separate notice for such order under section 18 of the Office of Federal Procurement Policy Act (41 U.S.C. 416) or section 8(e) of the Small Business Act (15 U.S.C. 637(e)).

"(B) Except as provided in paragraph (2), a competition (or a waiver of competition approved in accordance with section 303(f)) that is separate from that used for entering into the contract.

"(2)(A) When multiple contracts are awarded pursuant to subsection (c)(4), all contractors awarded such contracts shall be provided a fair opportunity to be considered, pursuant to procedures set forth in the contracts, for each task order in excess of $2,500 that is to be issued under any of the contracts unless—

"(i) the agency's need for the services ordered is of such unusual urgency that competition would result in unacceptable delays in fulfilling the agency's needs;

"(ii) only one such contractor is capable of providing the services required at the level of quality required because the services ordered are unique or highly specialized;

"(iii) the task order should be issued on a sole-source basis in the interest of economy and efficiency because it is a logical follow-on to a task order already issued on a competitive basis; or

"(iv) the order must be placed with a particular contractor in order to satisfy a minimum guarantee.

"(B) When a task order is issued in accordance with subparagraph (A), the order shall include a statement of work that clearly specifies all tasks to be performed under the order.

"(3) A protest is not authorized in connection with the issuance or proposed issuance of a task order except for a protest on the ground that the order increases the scope, period, or maximum value of the contract under which the order is issued.

"(e) INCREASES IN SCOPE, PERIOD, OR MAXIMUM VALUE OF CONTRACT.—(1) A task order may not increase the scope, period, or maximum value of the contract under which the order is issued. The scope, period, or maximum value of the contract may be increased only by modification of the contract.

"(2) Unless use of procedures other than competitive procedures is authorized by an exception in subsection (c) of section 303 and approved in accordance with subsection (f) of such section, competitive procedures shall be used for making such a modification.

"(3) Notice regarding the modification shall be provided in accordance with section 18 of the Office of Federal Procurement Policy Act (41 U.S.C. 416) and section 8(e) of the Small Business Act (15 U.S.C. 637(e)).

"(4)(A) Notwithstanding the limitation on the contract period set forth in subsection (b) or in a solicitation or contract pursuant to subsection (c), a contract entered into by the head of an agency under this section may be extended on a sole-source basis for a period not exceeding 6 months if the agency head determines that—

"(i) the award of a follow-on contract has been delayed by circumstances that were not reasonably foreseeable at the time the initial contract was entered into; and

"(ii) the extension is necessary in order to ensure continuity of the receipt of services pending the award of, and commencement of performance under, the follow-on contract.

"(B) A contract may be extended under the authority of subparagraph (A) only once and only in accordance with the limitations and requirements of this subsection.

"(f) TASK ORDER OMBUDSMAN.—Each agency head who awards multiple contracts pursuant to subsection (c)(4) shall appoint or designate a task order ombudsman who shall be responsible for reviewing complaints from the contractors on such contracts and ensuring that all of the contractors are afforded a fair opportunity to be considered for task orders when required under subsection (d)(2). The task order ombudsman shall be a senior agency official who is independent of the contracting officer for the contracts and may be the agency's competition advocate.

"(g) INAPPLICABILITY TO CERTAIN CONTRACTS.—This section does not apply to a contract for the acquisition of property or services that includes acquisition of advisory and assistance services if the agency head entering into such contract determines that, under the contract, advisory and assistance services are necessarily incident to, and not a significant component of, the contract.

"(h) RELATIONSHIP TO OTHER CONTRACTING AUTHORITY.—Nothing in this section may be construed to limit the authority of the head of an agency to enter into single or multiple task order contracts, or single or multiple delivery order contracts, for goods or services (other than advisory and assistance services) under other provisions of this title or under any other provision of law.

"(iii) in the case of a change or modification not covered by clause (i) or (ii), the price adjustment is expected to exceed $100,000.

"(C) An offeror for a subcontract (at any tier) of a contract under this title shall be required to submit cost or pricing data before the award of the subcontract if the prime contractor and each higher-tier subcontractor have been required to make available cost or pricing data under this section and—

"(i) in the case of a subcontract under a prime contract referred to in subparagraph (A)(i), the price of the subcontract is expected to exceed $500,000;

"(3) Cost or pricing data required to be submitted under paragraph (1) (or in accordance with subsection (c)), and a certification required to be submitted under paragraph (2), shall be submitted—

"(A) in the case of a submission by a prime contractor (or an offeror for a prime contract), to the contracting officer for the contract (or to a designated representative of the contracting officer); or

"(4) Except as provided under subsection (b), this section applies to contracts entered into by an agency head on behalf of a foreign government.

"(5) For purposes of paragraph (1)(C), a contractor or subcontractor granted a waiver under subsection (b)(1)(B) shall be considered as having been required to make available cost or pricing data under this section.

"(6)(A) Upon the request of a contractor that was required to submit cost or pricing data under paragraph (1) in connection with a prime contract entered into on or before the date of the enactment of the Federal Acquisition Streamlining Act of 1994, the agency head that entered into such contract shall modify the contract to reflect subparagraphs (B)(ii) and (C)(ii) of paragraph (1). All such modifications shall be made without requiring consideration.

"(B) An agency head is not required to modify a contract under subparagraph (A) if that agency head determines that the submission of cost or pricing data with respect to that contract should be required in accordance with subsection (c).

"(7) Effective on October 1 of each year that is divisible by 5, each amount set forth in paragraph (1) shall be adjusted to the amount that is equal to the fiscal year 1994 constant dollar value of the amount set forth. Any amount, as so adjusted, that is not evenly divisible by $50,000 shall be rounded to the nearest multiple of $50,000. In the case of an amount that is evenly divisible by $25,000 but not evenly divisible by $50,000, the amount shall be rounded to the next higher multiple of $50,000.

"(b) EXCEPTIONS.—(1) Submission of cost and pricing data shall not be required under subsection (a)—

"(A) in the case of a contract, a subcontract, or a contract or subcontract modification, for which the price agreed upon is based on—

"(i) adequate price competition;

"(ii) established catalog or market prices of commercial items or of services customarily used for other than Government purposes, as the case may be, that are sold in substantial quantities to the general public; or

"(iii) prices set by law or regulation; or

"(B) in an exceptional case when the agency head concerned determines that the requirements of this section may be waived and states in writing the reasons for such determination.

"(2) Submission of cost and pricing data shall not be required under subsection (a) in the case of a modification of a contract or subcontract for a commercial item if—

"(A) the contract or subcontract being modified is a contract or subcontract for which submission of cost and pricing data may not be required by reason of paragraph (1)(A);

"(B) the modification is not a case in which paragraph (1)(A) prohibits the agency head from requiring submission of cost and pricing data; and

"(C) the modification would not change the contract or subcontract, as the case may be, from a contract or subcontract for the acquisition of a commercial item to a contract or subcontract for the acquisition of a noncommercial item.

"(c) LIMITATION ON AUTHORITY TO REQUIRE COST OR PRICING DATA.—When cost or pricing data are not required to be submitted under this section by reason of a $500,000 threshold set forth in subsection (a) (as adjusted pursuant to paragraph (7) of such subsection) or by reason of an exception in paragraph (1)(A) or (2) of subsection (b), submission of such data may not be required unless the agency head concerned determines that such data are necessary for the evaluation by the agency of the reasonableness of the price of the contract or subcontract to which the data relate. In any case in which the agency head requires such data to be submitted in accordance with the preceding sentence, the agency head shall document in writing the reasons for such requirement.

"(d) ADDITIONAL EXCEPTION PROVISIONS REGARDING COMMERCIAL ITEMS.—(1) To the maximum extent practicable, an agency head shall conduct procurements of commercial items on a competitive basis.

"(2) In any case in which it is not practicable to conduct a procurement of a commercial item on a competitive basis and the procurement is not covered by an exception in subsection (b), the contracting officer shall nonetheless exempt a contract, subcontract, or modification of a contract or subcontract under the procurement from the requirements of subsection (a) if the contracting officer obtains, in accordance with standards and procedures set forth in the Federal Acquisition Regulation, information on prices at which the same or similar items have been sold in the commercial market that is adequate for evaluating the reasonableness of the price of the contract or subcontract for a commercial item, or the contract or subcontract modification, as the case may be. The contracting officer may obtain such information from the offeror or contractor or, when such information is not available from that source, from another source or sources.

"(3)(A) In accordance with procedures prescribed in the Federal Acquisition Regulation, an agency head shall have the right to examine all information provided by an offeror, contractor, or subcontractor pursuant to paragraph (2) and all books and records of such offeror, contractor, or subcontractor that directly relate to such information in order to determine whether the agency is receiving accurate information required under this section.

"(B) The right under subparagraph (A) shall expire 3 years after the date of award of the contract, or 3 years after the date of the modification of the contract, with respect to which the information was provided.

"(e) PRICE REDUCTIONS FOR DEFECTIVE COST OR PRICING DATA.—(1)(A) A prime contract (or change or modification to a prime contract) under which a certificate under subsection (a)(2) is required shall contain a provision that the price of the contract to the United States, including profit or fee, shall be adjusted to exclude any significant amount by which it may be determined by the agency head that such price was increased because the contractor (or any subcontractor required to make available such a certificate) submitted defective cost or pricing data.

"(B) For the purposes of this section, defective cost or pricing data are cost or pricing data which, as of the date of agreement on the price of the contract (or another date agreed upon between the parties), were inaccurate, incomplete, or noncurrent. If for purposes of the preceding sentence the parties agree upon a date other than the date of agreement on the price of the contract, the date agreed upon by the parties shall be as close to the date of agreement on the price of the contract as is practicable.

"(2) In determining for purposes of a contract price adjustment under a contract provision required by paragraph (1) whether, and to what extent, a contract price was increased because the contractor (or a subcontractor) submitted defective cost or pricing data, it shall be a defense that the United States did not rely on the defective data submitted by the contractor or subcontractor.

"(3) It is not a defense to an adjustment of the price of a contract under a contract provision required by paragraph (1) that—

"(A) the price of the contract would not have been modified even if accurate, complete, and current cost or pricing data had been submitted by the contractor or subcontractor because the contractor or subcontractor—

"(i) was the sole source of the property or services procured; or

"(ii) otherwise was in a superior bargaining position with respect to the property or services procured;

"(B) the contracting officer should have known that the cost and pricing data in issue were defective even though the contractor or subcontractor took no affirmative action to bring the character of the data to the attention of the contracting officer;

"(C) the contract was based on an agreement between the contractor and the United States about the total cost of the contract and there was no agreement about the cost of each item procured under such contract; or

"(D) the prime contractor or subcontractor did not submit a certification of cost and pricing data relating to the contract as required under subsection (a)(2).

"(4)(A) A contractor shall be allowed to offset an amount against the amount of a contract price adjustment under a contract provision required by paragraph (1) if—

"(i) the contractor certifies to the contracting officer (or to a designated representative of the contracting officer) that, to the best of the contractor's knowledge and belief, the contractor is entitled to the offset; and

"(ii) the contractor proves that the cost or pricing data were available before the date of agreement on the price of the contract (or price of the modification), or, if applicable consistent with paragraph (1)(B), another date agreed upon between the parties, and that the data were not submitted as specified in subsection (a)(3) before such date.

"(B) A contractor shall not be allowed to offset an amount otherwise authorized to be offset under subparagraph (A) if—

"(i) the certification under subsection (a)(2) with respect to the cost or pricing data involved was known to be false when signed; or

"(ii) the United States proves that, had the cost or pricing data referred to in subparagraph (A)(ii) been submitted to the United States before the date of agreement on the price of the contract (or price of the modification) or, if applicable under paragraph (1)(B), another date agreed upon between the parties, the submission of such cost or pricing data would not have resulted in an increase in that price in the amount to be offset.

"(f) INTEREST AND PENALTIES FOR CERTAIN OVERPAYMENTS.—(1) If the United States makes an overpayment to a contractor under a contract with an executive agency subject to this section and the overpayment was due to the submission by the contractor of defective cost or pricing data, the contractor shall be liable to the United States—

"(A) for interest on the amount of such overpayment, to be computed—

"(i) for the period beginning on the date the overpayment was made to the contractor and ending on the date the contractor repays the amount of such overpayment to the United States; and

"(ii) at the current rate prescribed by the Secretary of the Treasury under section 6621 of the Internal Revenue Code of 1986; and

"(B) if the submission of such defective data was a knowing submission, for an additional amount equal to the amount of the overpayment.

"(2) Any liability under this subsection of a contractor that submits cost or pricing data but refuses to submit the certification required by subsection (a)(2) with respect to the cost or pricing data shall not be affected by the refusal to submit such certification.

"(g) RIGHT OF UNITED STATES TO EXAMINE CONTRACTOR RECORDS.—For the purpose of evaluating the accuracy, completeness, and currency of cost or pricing data required to be submitted by this section, the head of an agency shall have the rights provided by section 304B(a)(2).

"(h) REQUIRED REGULATIONS.—The Federal Acquisition Regulation shall include regulations concerning the types of information that offerors must submit for a contracting officer to consider in determining whether the price of a procurement to the Government is fair and reasonable when certified cost or pricing data are not required to be submitted under this section because the price of the procurement to the United States is not expected to exceed an applicable $500,000 threshold set forth in subsection (a) (as adjusted pursuant to paragraph (7) of such subsection). Such information, at a minimum, shall include appropriate information on the prices at which the same or similar items have previously been sold that is adequate for evaluating the reasonableness of the price of a proposed contract or subcontract for the procurement.

"(i) DEFINITIONS.—In this section:

"(1) The term 'cost or pricing data' means all facts that, as of the date of agreement on the price of a contract (or the price of a contract modification) or, if applicable consistent with subsection (e)(1)(B), another date agreed upon between the parties, a prudent buyer or seller would reasonably expect to affect price negotiations significantly. Such term does not include information that is judgmental, but does include the factual information from which a judgment was derived.

"(2) The term 'subcontract' includes a transfer of commercial items between divisions, subsidiaries, or affiliates of a contractor.".

SEC. 1017. BURDENSHARING POLICY AND REPORT.

(a) POLICY.—It is the policy of the United States that the North Atlantic Treaty Organization (NATO) allies should assist the United States in paying the incremental cost incurred by the United States for maintaining members of the Armed Forces in assignments to permanent duty ashore in Europe solely for performing United States obligations for support of NATO.

(b) IMPLEMENTATION.—The President shall take all necessary actions to ensure the effective implementation of the burdensharing policy set forth in subsection (a).

(c) REPORT.—The Secretary of Defense shall include in the annual burdensharing report required by section 1002(d) of the Department of Defense Authorization Act, 1985 (22 U.S.C. 1928 note) the following matters:

SEC. 1018. REVIEW AND REPORT REGARDING DEPARTMENT OF DEFENSE PROGRAMS RELATING TO REGIONAL SECURITY AND HOST NATION DEVELOPMENT IN THE WESTERN HEMISPHERE.

(a) FINDINGS.—Congress makes the following findings:

(1) The political environment in the Western Hemisphere has been characterized in recent years by significant democratic advances and an absence of international strife; but democracy is fragile in some nations of the region.

(2) It is desirable for the Department of Defense to perform a positive role in influencing regional armed forces to make positive contributions to the democratic process and to domestic development programs.

(3) Congress receives a number of annual reports relating to specific authorities granted to the Secretary of Defense under title 10, United States Code, such as the authorities relating to the conduct of bilateral or regional cooperation programs under section 1051, participation of developing countries in combined exercises under section 2110, and the training of special operations forces with friendly forces under section 2011.

(4) The annual reports are replete with statistics and dollar figures and generally lacking in substance.

(5) Congress does not receive annual reports with respect to other authorities of the Secretary of Defense, such as that relating to Latin American cooperation under section 1050 of title 10, United States Code.

(6) Testimony before Congress, including in particular the testimony of the Commander in Chief, United States Southern Command, and the Commander in Chief, United States Atlantic Command, has emphasized the conduct of a large number of complementary programs under the leadership and supervision of those two commanders to foster appropriate military roles in democratic host nations and to assist countries in developing forces properly trained to address their security needs, including needs regarding illegal immigration, insurgencies, smuggling of illegal arms, munitions, and explosives across borders, and drug trafficking.

(7) Most of the programs referred to in paragraph (6) provide excellent and often unique training and experience to the United States forces involved.

(8) The expansion of the military-to-military contact program to the Western Hemisphere will provide another tool to encourage a democratic orientation of the defense establishments and military forces of countries in the region.

(9) There is a need to conduct a comprehensive review of the several authorities in title 10, United States Code, for the Secretary of Defense to engage in cooperative regional security programs with other countries in the Western Hemisphere in order to determine whether the authorities continue to be appropriate and necessary, particularly in the light of the changed circumstances in the region.

(10) There is a need to conduct a comprehensive review of the various programs carried out pursuant to such authorities to ensure that such programs are designed to meet the needs of the host nations involved and the regional objectives of the United States.

(11) There is a need to assess the strengths and weaknesses of the various regional security organizations, defense forums, and defense education institutions in the Western Hemisphere in order to identify any improvements needed to harmonize the defense policies of the United States and those of friendly nations of the region.

(b) REPORT REQUIRED.—Not later than May 1, 1995, the Secretary of Defense, shall—

(1) carry out a comprehensive review and assessment of the matters referred to in paragraphs (9), (10), and (11) of subsection (a); and

(2) after consultation with the Chairman of the Joint Chiefs of Staff and the commanders of the combatant commands responsible for regions in the Western Hemisphere, submit to the Committees on Armed Services of the Senate and House of Representatives a report on regional defense matters.

(c) CONTENT OF REPORT.—The report shall contain a detailed and comprehensive description, discussion, and analysis of the following matters:

(1) The Department of Defense plan to support United States strategic objectives in the Western Hemisphere.

(2) The external and internal threats to the national security of the nations of the region.

(3) The various regional security cooperative programs carried out by the Department of Defense in the region in 1994, including training and education programs in the host nations and in the United States and defense contacts set forth on a country-by-country basis, the statutory authority, if any, for such programs, and the strategic objectives served.

(4) The various regional security organizations, defense forums, and defense education institutions that the United States maintains or in which the United States participates.

(5) An assessment of the contribution that such programs, defense contacts, organizations, forums, and institutions make to the advancement of regional security, host nation security and national development, and the strategic objectives of the United States.

(6) The changes made or to be made in the programs, organizations, forums, and institutions as a result of the comprehensive review.

(7) Any recommended legislation considered necessary to improve the ability of the Department to achieve its strategic objectives.

(d) CLASSIFICATION OF REPORT.—The report shall be submitted in an unclassified form and may, if necessary, have a classified supplement.

SEC. 1019. PAYMENTS-IN-KIND FOR RELEASE OF UNITED STATES OVERSEAS MILITARY FACILITIES TO NATO HOST COUNTRIES.

(a) FINDINGS.—Congress makes the following findings:

(1) The United States has invested $6,500,000,000 in military infrastructure in North Atlantic Treaty Organization (NATO) countries.

(2) As part of an overall plan to reduce United States troop strength in Europe from 323,432 in 1987 to 100,000 by the end of 1996, the Department of Defense plans to close or

reduce United States military presence at 867 military sites overseas.

(3) Most of the overseas military sites announced for closure are in Europe where the United States has already closed 434 such sites.

(4) When the United States closes military sites in Europe, the United States brings the military personnel home but leaves buildings, roads, sewers, and other real property improvements behind.

(5) Some allies have agreed to pay the United States for the residual value of the real property improvements left behind.

(6) Although the United States military drawdown has been rapid since 1990, European allies have been slow to pay the United States the residual value of the sites released by the United States.

(7) As of 1994, the United States has recouped only $33,300,000 in cash, and most of that was recovered in 1989.

(8) Although the United States has released to Germany over 60 percent of the military sites planned for closure by the United States in that country and the current value of United States facilities to be returned to the German government is estimated at approximately $2,700,000,000, the German government has budgeted only $25,000,000 for fiscal year 1994 for payment of compensation for the United States investment in such improvements.

(b) POLICY.—It is the sense of Congress that—

(1) the President should redouble efforts to recover the value of the United States investment in the military infrastructure of NATO countries;

(2) the President should enter into negotiations with the government of each NATO host country with a presumption that payments to compensate the United States for the negotiated value of improvements will be made in cash and deposited in the Department of Defense Overseas Military Facility Investment Recovery Account;

(3) the President should enter into negotiations for payments-in-kind only as a last resort and only after informing the Congress that negotiations for cash payments have not been successful; and

(4) to the extent that in-kind contributions are received in lieu of cash payments in any fiscal year, the in-kind contributions should be used for projects which are identified priorities of the Department of Defense.

(c) REQUIREMENTS AND LIMITATIONS RELATING TO PAYMENTS-IN-KIND.—(1) Subsection (e) of section 2921 of the National Defense Authorization Act for Fiscal Year 1991 (10 U.S.C. 2687 note) is amended—

(A) by inserting "(1)" after "NEGOTIATIONS FOR PAYMENTS-IN-KIND.—";

(B) by striking out "a written notice" and all that follows and inserting in lieu thereof "to the congressional defense committees (and one additional copy to each of the Subcommittees on Defense of the Committees on Appropriations of the Senate and the House of Representatives) a written notice regarding the intended negotiations."; and

(C) by adding at the end the following new paragraph:

"(2) The notice shall contain the following:

"(A) A justification for entering into negotiations for payments-in-kind with the host country.

"(B) The types of benefit options to be pursued by the Secretary in the negotiations.

"(C) A discussion of the adjustments that are intended to be made in the future-years defense program or in the budget of the Department of Defense for the fiscal year in which the notice is submitted or the following fiscal year in order to reflect costs that it may no longer be necessary for the United States to incur as a result of the payments-in-kind to be sought in the negotiations.".

(2) Such section is amended by adding at the end the following new subsection:

"(h) CONGRESSIONAL OVERSIGHT OF PAYMENTS-IN-KIND.—(1) Not less than 30 days before concluding an agreement for acceptance of military construction or facility improvements as a payment-in-kind, the Secretary of Defense shall submit to Congress a notification on the proposed agreement that contains the following matters:

"(A) A description of the military construction project or facility improvement project, as the case may be.

"(B) A certification that the project is needed by United States forces.

"(C) An explanation of how the project will aid in the achievement of the mission of those forces.

"(D) A certification that, if the project were to be carried out by the Department of Defense, appropriations would be necessary for the project and it would be necessary to provide for the project in the next future-years defense program.

"(2) Not less than 30 days before concluding an agreement for acceptance of host nation support or host nation payment of operating costs of United States forces as a payment-in-kind, the Secretary of Defense shall submit to Congress a notification on the proposed agreement that contains the following matters:

"(A) A description of each activity to be covered by the payment-in-kind.

"(B) A certification that the costs to be covered by the payment-in-kind are included in the budget of one or more of the military departments or that it will otherwise be necessary to provide for payment of such costs in a budget of one or more of the military departments.

"(C) A certification that, unless the payment-in-kind is accepted or funds are appropriated for payment of such costs, the military mission of the United States forces with respect to the host nation concerned will be adversely affected.".

SEC. 1088. BOSNIA AND HERZEGOVINA.

(a) PURPOSE.—To express the sense of Congress concerning the international efforts to end the conflict in Bosnia and Hercegovina.

(b) STATEMENTS.—The Congress makes the following statements of support:

(1) The Congress supports the use of international sanctions in the form of arms and economic embargoes imposed by the United Nations Security Council in appropriate circumstances.

(2) The Congress supports the imposition of an arms and economic embargo on the Government of Iraq by United Nations Security Council resolution 661 of August 6, 1990 to bring about compliance with a number of conditions, including in particular an end to Iraq's nuclear weapons program.

(3) The Congress supports the imposition of an arms, petroleum and economic embargo on Haiti by United Nations Security Council resolutions 875 of October 16, 1993 and 917 of May 17, 1994 to bring about compliance with the Governors Island Agreement.

(4) The Congress supports the imposition of an arms and civil aircraft embargo on Libya pursuant to United Nations Security Council resolution 748 of March 31, 1992 in order to convince Libya to renounce terrorism.

(c) FINDINGS.—The Congress makes the following findings:

(1) The United States took the lead in the United Nations Security Council to impose international sanctions in the form of arms and economic embargoes on Iraq, Haiti, and Libya.

(2) The security of the Republic of Korea with whom the United States has a mutual defense treaty and on whose territory there are more than 38,000 members of the United States Armed Forces is a vital interest of the United States.

(3) Should negotiations fail, the imposition of sanctions by the United Nations Security Council on North Korea, which would require the affirmative vote or abstention of China, Russia, Britain, and France, may be essential to stop North Korea's nuclear weapons development program and to end a nuclear threat to the Republic of Korea and Southeast Asia.

(4) The effective enforcement of sanctions on North Korea, once imposed by the United Nations Security Council, would require the cooperation of China, Russia, and Japan as well as other allies, including Britain and France, both permanent members of the United Nations Security Council.

(5) The United States voted for the international arms embargo imposed by United Nations Security Council resolution 713 of September 25, 1991 that was imposed on Yugoslavia.

(6) The imposition of the United Nations arms embargo on September 25, 1991 has not served to end the conflict in Bosnia and Hercegovina, has provided a battlefield advantage to the Bosnian Serbs, who possess artillery, tanks, and other weapons left behind by the former Yugoslav Army or provided by Serbia and Montenegro, and has deprived the Government of Bosnia and Hercegovina from acquiring the adequate means of defending itself and its citizens.

(7) Our NATO allies have committed ground forces to the United Nations Protection Force (UNPROFOR) in former Yugoslavia. At the present time France has 5,518 troops, Britain 3,435, the Netherlands 2,073, Canada 2,037, Turkey 1,696, Spain 1,417, and Belgium 1,000. Our NATO allies have thus far sustained 49 deaths and 936 wounded as a result of their participation in UNPROFOR.

(8) For the first time the so-called "contact group" composed of representatives of the United States, Russia, France and Britain is moving toward a unified position of using an incentives and disincentives "carrot and stick" strategy to bring about a peaceful settlement of the conflict in Bosnia and Hercegovina.

(d) It is the sense of the Congress that the United States should work with the NATO Member nations and the other permanent members of the United Nations Security Council to endorse the efforts of the contact group to bring about a peaceful settlement of the conflict in Bosnia Hercegovina, including the following:

(A) the preservation of an economically, politically and militarily viable Bosnian state capable of exercising its rights under the United Nations Charter as part of a peaceful settlement, the lifting of the United Nations arms embargo on the Government of Bosnia and Hercegovina so that it can exercise the inherent right of a sovereign state to self-defense;

(B) if the Bosnian Serbs, while the contact group's peace proposal is being considered and discussed, attack the safe areas designated by the United Nations Security Council, the partial lifting of the arms embargo on the Government of Bosnia and Hercegovina and the provision to that Government of defensive weapons and equipment appropriate and necessary to defend those safe areas;

(C) if the Bosnian Serbs do not respond constructively to the peace negotiations, the President or his representative shall promptly propose or support a resolution in the United Nations Security Council to terminate the intentional arms embargo on Bosnia and Hercegovina (and the orderly withdrawal of the United Nationals Protection Force and humanitarian relief personnel). If the Security Council fails to pass such a resolution, the President shall within 5 days consult with Congress regarding unilateral termination of the arms embargo on the Government of Bosnia and Hercegovina.

(1) that such actions are necessary because of the extraordinary threat posed by drug trafficking to the national security of that country, and

(2) that the country has appropriate procedures in place to protect against innocent loss of life in the air and on the ground, which shall at a minimum include effective means to identify and warn aircraft prior to the use of force.

(b) It shall not be unlawful for authorized employees or agents of the United States to provide assistance, including but not limited to operational, intelligence, logistical, technical and administration assistance, for the actions of foreign countries set forth in subsection (a), nor shall the provision of such assistance give rise to any civil action seeking money damages or any other form of relief against the United States or its agents or employees.

(6) Whereas the Administration's budget assumes the Department of Defense will save at least $6 billion from procurement reform;

(b) SENSE OF CONGRESS.—It is the Sense of Congress:

(1) that within 30 days after enactment of this legislation, the Secretary of Defense should initiate a review of the assumptions and conclusions of the President's Budget, the Bottom Up Review, and the Future Years Defense Program; and that not more than 180 days after the review is initiated the Secretary of Defense should submit to the President and to the Congress a report detailing the force structure required for an effective defense of the United States and its vital national interests;

SEC. 1097. NORTH ATLANTIC TREATY ORGANIZATION.

(a) FINDINGS.—The Congress makes the following findings:

(1) The North Atlantic Treaty Organization has served as a bulwark of peace, security, and democracy for the United States and the members of the alliance since 1949.

(2) The unswerving resolve of the member states of the North Atlantic Treaty Organization to mutual defense against the threat of communist aggression was central to the demise of the Warsaw Pact.

(3) The North Atlantic Treaty Organization is the most successful international security organization in history, and is well suited to help marshal our cooperative political, diplomatic, economic, and humanitarian efforts, buttressed by credible military capability aimed at deterring conflict, and thus contributing to international peace and security.

(4) The threat of instability in Eastern and Central Europe, as well as in the Southern and Eastern Mediterranean, continues to pose a fundamental challenge to the interests of the member states of the North Atlantic Treaty Organization.

(5) North Atlantic Treaty Organization assets have been deployed in recent years for more than the territorial defense of alliance members; and the Rome Summit of October 1991 adopted a new strategic concept for the North Atlantic Treaty Organization that entertained the possibility of operations beyond the alliance's self-defense area.

(6) In Oslo in July 1992, and in Brussels in December 1992, the alliance embraced the deployment of North Atlantic Treaty Organization forces to peacekeeping operations under the auspices of the United Nations or the Conference on Security and Cooperation in Europe.

(7) The North Atlantic Treaty Organization should attempt to cooperate with and seek a mandate from international organizations such as the United Nations when considering responses to out of area crises.

(8) Not all members of the international community share a commonality of interests that would ensure timely action by the United Nations Security Council.

(9) The security interests of the member countries of the North Atlantic Treaty Organization must not be held hostage to indecision at the United Nations or a veto by a permanent member of the Security Council.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that—

(1) it should be the policy of the United States that, in accordance with article 53 of the United Nations Charter, the North Atlantic Treaty Organization retains the right of autonomy of action regarding missions in addition to collective defense should the United Nations Security Council or the Conference on Security and Cooperation in Europe fail to act;

(2) while it is desirable to work with other international organizations and arrangements where feasible in dealing with threats to the peace, the North Atlantic Treaty Organization is not an auxiliary to the United Nations or any other organization; and

(3) the member states of the North Atlantic Treaty Organization reserve the right to act collectively in defense of their vital interests.

SEC. 1098. LIMITATION ON OBLIGATION OF FUNDS FOR MARK-6 GUIDANCE SETS FOR TRIDENT II MISSILES.

(a) LIMITATION.—Until the certification in subsection (b) has been provided to the congressional defense committees, funds appropriated for fiscal year 1995 for the Navy may not be obligated to procure more than 14 Mark-6 guidance sets for Trident II missiles.

(b) CERTIFICATION.—Before the Secretary of Defense may obligate funds for Mark-6 guidance sets in addition to the 14 sets authorized in subsection (a), he shall certify to the congressional defense committees that failure to procure such additional units would pose an unacceptable risk to the long-term readiness and reliability of the Trident II missile program.

SEC. 1099. MILITARY PLANNING FOR THE SIZE AND STRUCTURE OF A FORCE REQUIRED FOR A MAJOR REGIONAL CONTINGENCY ON THE KOREAN PENINSULA.

(a) FINDINGS.—Congress finds as follows:

(1) Whereas the Administration commissioned the Bottom-Up Review to properly size and structure the Armed Forces of the United States for the Post-Cold-War Era;

(2) Whereas the Bottom-Up Review itself cites the need for the Armed Forces of the United States to be large enough to prevail in two major regional conflicts, similar in nature to the 1991 war against Iraq, "nearly simultaneously";

(3) Whereas the Bottom-Up Review gives special consideration to a scenario that hypothesizes that the two "nearly simultaneous" conflicts would occur in Korea and the Persian Gulf;

(4) Whereas the United States sent 7 Army divisions, the equivalent of 10 Air Force tactical fighter wings, 70 heavy bombers, 6 Navy aircraft carrier battle groups, and 5 Marine Corps brigades to the Persian Gulf to fight the war against Iraq;

(5) Whereas the Bottom-Up Review asserts that the forces needed to fight two conflicts similar to that with Iraq can be drawn from a total military force of between 15 and 16 Army divisions, 20 Air Force tactical fighter wings, 184 heavy bombers, 11 active Navy aircraft carriers (along with one reserve/training carrier), and the equivalent of 12 Marine Corp brigades;

(6) Whereas the Bottom-Up Review recognizes that approximately 100,000 members of the United States Armed Forces will be stationed in Europe;

(7) Whereas the Bottom-Up Review recognizes that sizeable numbers of United States forces could be involved in peace enforcement and intervention operations at any one time;

(8) Whereas the Bottom-Up Review makes no specific recommendation as to the number of forces to be held in reserve to provide a rotation base either to relieve troops in the event one or both hypothetical conflicts result in lengthy deployments or to replace combat losses;

(9) Whereas military planners calculate that the number of United States forces needed to help defeat an invasion of South Korea by North Korea may exceed 430,000 United States military personnel;

(10) Whereas the size of the force military planners may request to help defend South Korea could exceed the levels that are consistent with the recommendations of Bottom-Up Review if the existing and future force requirements for a presence in Europe, possible peace enforcement operations, and an adequate rotation base, as well as a second regional conflict, must be fulfilled simultaneously.

(b) SENSE OF CONGRESS.—It is the Sense of Congress:

(1) that the force structure identified in the Bottom-Up Review may not be used to limit the size or structure of the force United States military commanders may request in preparation for a major regional contingency on the Korean peninsula;

(2) and that the Chairmen and Ranking Members of the House and Senate Committees on Armed Services and Chairmen and Ranking members of the House and Senate Appropriations Subcommittees on Defense should receive regular briefings from the Department of Defense of the situation on the Korean peninsula;

(3) and that the conclusions of the Bottom-Up Review should be continuously examined in light of the lessons learned from preparation for a major regional contingency on the Korean peninsula and from other military operations.

(1) The closure or realignment of a major military installation can cause severe economic disruption to the host community for the installation.

(2) Communities affected by the closure of a major military installation under a base closure law dedicate significant time, effort, and resources to planning for the economic redevelopment of the installation.

(3) The Federal Government can ease the disruption caused by the closure of a military installation by working cooperatively with the host community for the installation to implement the community's redevelopment plan for the installation.

(4) In recent years, the Federal Government has not always provided sufficient assistance to communities affected by the closure of a military installation under a base closure law in the efforts of such communities to provide for the economic redevelopment of the installation.

(5) In July 1993, the President issued a five-point plan for revitalizing base closure communities which emphasized the economic recovery of communities affected by the closure of a military installation under a base closure law.

(6) In November 1993, Congress agreed to the provisions of subtitle A of title XXIX of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103–160; 107 Stat. 1909), and the amendments made thereunder, in order to implement the plan referred to in paragraph (5) and to provide other assistance to communities attempting to redevelop military installations approved for closure under a base closure law.

(7) The Secretary of Defense is accepting public comment on the guidelines for implementation of the provisions of law referred to in paragraph (6).

(b) Sense of the Senate.—It is the sense of the Senate that the Secretary of Defense should—

(1) ensure that the regulations implementing the provisions of subtitle A of title XXIX of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103–160; 107 Stat. 1909), and the amendments made thereunder, reflect the intent of Congress that, to the maximum extent practicable, the Secretary take into consideration the redevelopment plans of affected communities when taking actions or implementing decisions on the closure of a military installation approved for closure under a base closure law;

(2) ensure that the regulations implementing such provisions reflect the intent of Congress to encourage and promote cooperation and dialogue between the Federal Government and communities affected by the closure of an installation throughout the base closure process; and

(3) develop a system of incentives or awards to encourage Department of Defense personnel to provide greater assistance to and cooperation with communities affected by the closure of an installation during the ongoing effort of revitalizing the economy of such communities.

Any such extension may be made for only one school year at a time.

(a) POLICY.—It is the policy of the United States that the North Atlantic Treaty Organization (NATO) allies should assist the United States in paying the incremental cost incurred by the United States for maintaining members of the Armed Forces in assignments to permanent duty ashore in Europe solely for performing United States obligations for support of NATO.

(b) IMPLEMENTATION.—The President shall take all necessary actions to ensure the effective implementation of the burdensharing policy set forth in subsection (a).

(c) REPORT.—The Secretary of Defense shall include in the annual burdensharing report required by section 1002(d) of the Department of Defense Authorization Act, 1985 (22 U.S.C. 1928 note) the following matters:

SEC. 1018. REVIEW AND REPORT REGARDING DEPARTMENT OF DEFENSE PROGRAMS RELATING TO REGIONAL SECURITY AND HOST NATION DEVELOPMENT IN THE WESTERN HEMISPHERE.

(a) FINDINGS.—Congress makes the following findings:

(1) The political environment in the Western Hemisphere has been characterized in recent years by significant democratic advances and an absence of international strife; but democracy is fragile in some nations of the region.

(2) It is desirable for the Department of Defense to perform a positive role in influencing regional armed forces to make positive contributions to the democratic process and to domestic development programs.

(3) Congress receives a number of annual reports relating to specific authorities granted to the Secretary of Defense under title 10, United States Code, such as the authorities relating to the conduct of bilateral or regional cooperation programs under section 1051, participation of developing countries in combined exercises under section 2110, and the training of special operations forces with friendly forces under section 2011.

(4) The annual reports are replete with statistics and dollar figures and generally lacking in substance.

(5) Congress does not receive annual reports with respect to other authorities of the Secretary of Defense, such as that relating to Latin American cooperation under section 1050 of title 10, United States Code.

(6) Testimony before Congress, including in particular the testimony of the Commander in Chief, United States Southern Command, and the Commander in Chief, United States Atlantic Command, has emphasized the conduct of a large number of complementary programs under the leadership and supervision of those two commanders to foster appropriate military roles in democratic host nations and to assist countries in developing forces properly trained to address their security needs, including needs regarding illegal immigration, insurgencies, smuggling of illegal arms, munitions, and explosives across borders, and drug trafficking.

(7) Most of the programs referred to in paragraph (6) provide excellent and often unique training and experience to the United States forces involved.

(8) The expansion of the military-to-military contact program to the Western Hemisphere will provide another tool to encourage a democratic orientation of the defense establishments and military forces of countries in the region.

(9) There is a need to conduct a comprehensive review of the several authorities in title 10, United States Code, for the Secretary of Defense to engage in cooperative regional security programs with other countries in the Western Hemisphere in order to determine whether the authorities continue to be appropriate and necessary, particularly in the light of the changed circumstances in the region.

(10) There is a need to conduct a comprehensive review of the various programs carried out pursuant to such authorities to ensure that such programs are designed to meet the needs of the host nations involved and the regional objectives of the United States.

(11) There is a need to assess the strengths and weaknesses of the various regional security organizations, defense forums, and defense education institutions in the Western Hemisphere in order to identify any improvements needed to harmonize the defense policies of the United States and those of friendly nations of the region.

(b) REPORT REQUIRED.—Not later than May 1, 1995, the Secretary of Defense, shall—

(1) carry out a comprehensive review and assessment of the matters referred to in paragraphs (9), (10), and (11) of subsection (a); and

(2) after consultation with the Chairman of the Joint Chiefs of Staff and the commanders of the combatant commands responsible for regions in the Western Hemisphere, submit to the Committees on Armed Services of the Senate and House of Representatives a report on regional defense matters.

(c) CONTENT OF REPORT.—The report shall contain a detailed and comprehensive description, discussion, and analysis of the following matters:

(1) The Department of Defense plan to support United States strategic objectives in the Western Hemisphere.

(2) The external and internal threats to the national security of the nations of the region.

(3) The various regional security cooperative programs carried out by the Department of Defense in the region in 1994, including training and education programs in the host nations and in the United States and defense contacts set forth on a country-by-country basis, the statutory authority, if any, for such programs, and the strategic objectives served.

(4) The various regional security organizations, defense forums, and defense education institutions that the United States maintains or in which the United States participates.

(5) An assessment of the contribution that such programs, defense contacts, organizations, forums, and institutions make to the advancement of regional security, host nation security and national development, and the strategic objectives of the United States.

(6) The changes made or to be made in the programs, organizations, forums, and institutions as a result of the comprehensive review.

(7) Any recommended legislation considered necessary to improve the ability of the Department to achieve its strategic objectives.

(d) CLASSIFICATION OF REPORT.—The report shall be submitted in an unclassified form and may, if necessary, have a classified supplement.

SEC. 1019. PAYMENTS-IN-KIND FOR RELEASE OF UNITED STATES OVERSEAS MILITARY FACILITIES TO NATO HOST COUNTRIES.

(a) FINDINGS.—Congress makes the following findings:

(1) The United States has invested $6,500,000,000 in military infrastructure in North Atlantic Treaty Organization (NATO) countries.

(2) As part of an overall plan to reduce United States troop strength in Europe from 323,432 in 1987 to 100,000 by the end of 1996, the Department of Defense plans to close or reduce United States military presence at 867 military sites overseas.

(3) Most of the overseas military sites announced for closure are in Europe where the United States has already closed 434 such sites.

(4) When the United States closes military sites in Europe, the United States brings the military personnel home but leaves buildings, roads, sewers, and other real property improvements behind.

(5) Some allies have agreed to pay the United States for the residual value of the real property improvements left behind.

(6) Although the United States military drawdown has been rapid since 1990, European allies have been slow to pay the United States the residual value of the sites released by the United States.

(7) As of 1994, the United States has recouped only $33,300,000 in cash, and most of that was recovered in 1989.

(8) Although the United States has released to Germany over 60 percent of the military sites planned for closure by the United States in that country and the current value of United States facilities to be returned to the German government is estimated at approximately $2,700,000,000, the German government has budgeted only $25,000,000 for fiscal year 1994 for payment of compensation for the United States investment in such improvements.

(b) POLICY.—It is the sense of Congress that—

(1) the President should redouble efforts to recover the value of the United States investment in the military infrastructure of NATO countries;

(2) the President should enter into negotiations with the government of each NATO host country with a presumption that payments to compensate the United States for the negotiated value of improvements will be made in cash and deposited in the Department of Defense Overseas Military Facility Investment Recovery Account;

(3) the President should enter into negotiations for payments-in-kind only as a last resort and only after informing the Congress that negotiations for cash payments have not been successful; and

SEC. 1088. BOSNIA AND HERZEGOVINA.

(a) PURPOSE.—To express the sense of Congress concerning the international efforts to end the conflict in Bosnia and Hercegovina.

(b) STATEMENTS.—The Congress makes the following statements of support:

(1) The Congress supports the use of international sanctions in the form of arms and economic embargoes imposed by the United Nations Security Council in appropriate circumstances.

(2) The Congress supports the imposition of an arms and economic embargo on the Government of Iraq by United Nations Security Council resolution 661 of August 6, 1990 to bring about compliance with a number of conditions, including in particular an end to Iraq's nuclear weapons program.

(3) The Congress supports the imposition of an arms, petroleum and economic embargo on Haiti by United Nations Security Council resolutions 875 of October 16, 1993 and 917 of May 17, 1994 to bring about compliance with the Governors Island Agreement.

(4) The Congress supports the imposition of an arms and civil aircraft embargo on Libya pursuant to United Nations Security Council resolution 748 of March 31, 1992 in order to convince Libya to renounce terrorism.

(c) FINDINGS.—The Congress makes the following findings:

(1) The United States took the lead in the United Nations Security Council to impose international sanctions in the form of arms and economic embargoes on Iraq, Haiti, and Libya.

(2) The security of the Republic of Korea with whom the United States has a mutual defense treaty and on whose territory there are more than 38,000 members of the United States Armed Forces is a vital interest of the United States.

(3) Should negotiations fail, the imposition of sanctions by the United Nations Security Council on North Korea, which would require the affirmative vote or abstention of China, Russia, Britain, and France, may be essential to stop North Korea's nuclear weapons development program and to end a nuclear threat to the Republic of Korea and Southeast Asia.

(4) The effective enforcement of sanctions on North Korea, once imposed by the United Nations Security Council, would require the cooperation of China, Russia, and Japan as well as other allies, including Britain and France, both permanent members of the United Nations Security Council.

(5) The United States voted for the international arms embargo imposed by United Nations Security Council resolution 713 of September 25, 1991 that was imposed on Yugoslavia.

(6) The imposition of the United Nations arms embargo on September 25, 1991 has not served to end the conflict in Bosnia and Hercegovina, has provided a battlefield advantage to the Bosnian Serbs, who possess artillery, tanks, and other weapons left behind by the former Yugoslav Army or provided by Serbia and Montenegro, and has deprived the Government of Bosnia and Hercegovina from acquiring the adequate means of defending itself and its citizens.

(7) Our NATO allies have committed ground forces to the United Nations Protection Force (UNPROFOR) in former Yugoslavia. At the present time France has 5,518

troops, Britain 3,435, the Netherlands 2,073, Canada 2,037, Turkey 1,696, Spain 1,417, and Belgium 1,000. Our NATO allies have thus far sustained 49 deaths and 936 wounded as a result of their participation in UNPROFOR.

(8) For the first time the so-called "contact group" composed of representatives of the United States, Russia, France and Britain is moving toward a unified position of using an incentives and disincentives "carrot and stick" strategy to bring about a peaceful settlement of the conflict in Bosnia and Hercegovina.

(d) It is the sense of the Congress that the United States should work with the NATO Member nations and the other permanent members of the United Nations Security Council to endorse the efforts of the contact group to bring about a peaceful settlement of the conflict in Bosnia Hercegovina, including the following:

(A) the preservation of an economically, politically and militarily viable Bosnian state capable of exercising its rights under the United Nations Charter as part of a peaceful settlement, the lifting of the United Nations arms embargo on the Government of Bosnia and Hercegovina so that it can exercise the inherent right of a sovereign state to self-defense;

(B) if the Bosnian Serbs, while the contact group's peace proposal is being considered and discussed, attack the safe areas designated by the United Nations Security Council, the partial lifting of the arms embargo on the Government of Bosnia and Hercegovina and the provision to that Government of defensive weapons and equipment appropriate and necessary to defend those safe areas;

(C) if the Bosnian Serbs do not respond constructively to the peace negotiations, the President or his representative shall promptly propose or support a resolution in the United Nations Security Council to terminate the intentional arms embargo on Bosnia and Hercegovina (and the orderly withdrawal of the United Nationals Protection Force and humanitarian relief personnel). If the Security Council fails to pass such a resolution, the President shall within 5 days consult with Congress regarding unilateral termination of the arms embargo on the Government of Bosnia and Hercegovina.

(1) that such actions are necessary because of the extraordinary threat posed by drug trafficking to the national security of that country, and

(2) that the country has appropriate procedures in place to protect against innocent loss of life in the air and on the ground, which shall at a minimum include effective means to identify and warn aircraft prior to the use of force.

(b) It shall not be unlawful for authorized employees or agents of the United States to provide assistance, including but not limited to operational, intelligence, logistical, technical and administration assistance, for the actions of foreign countries set forth in subsection (a), nor shall the provision of such assistance give rise to any civil action seeking money damages or any other form of relief against the United States or its agents or employees.

(a) FINDINGS.—Congress finds as follows:

(1) Whereas the Administration commissioned the Bottom Up Review to properly structure the Armed Forces of the United States for the Post-Cold War Era;

(3) Whereas, the Secretary of the Navy has testified that the Department of the Navy will only operate 330 ships rather than the 346 ships required by the Bottom Up Review;

(4) Whereas, in January 1994, in his Annual Report to the President and the Congress, the Secretary of Defense reported that the Air Force will field approximately 100 heavy bombers rather than the 184 required by the Bottom Up Review;

(5) Whereas the Department of Defense's plans for a major regional contingency in the Far East call for 5 Army divisions and the plans for a major regional contingency in Southwest Asia call for 7 Army divisions, while the Bottom Up Review plans for an Army of only 10 active divisions;

(6) Whereas the Administration's budget assumes the Department of Defense will save at least $6 billion from procurement reform;

(7) Whereas the first and second rounds of the Base Realignment and Closure Commission have not yet achieved the level of savings initially estimated, and the 1995 base closure round may cost significantly more than is assumed in the Administration's budget.

(b) SENSE OF CONGRESS.—It is the Sense of Congress:

(1) that within 30 days after enactment of this legislation, the Secretary of Defense should initiate a review of the assumptions and conclusions of the President's Budget, the Bottom Up Review, and the Future Years Defense Program; and that not more than 180 days after the review is initiated the Secretary of Defense should submit to the President and to the Congress a report detailing the force structure required for an effective defense of the United States and its vital national interests;

SEC. 1097. NORTH ATLANTIC TREATY ORGANIZATION.

(a) FINDINGS.—The Congress makes the following findings:

(1) The North Atlantic Treaty Organization has served as a bulwark of peace, security, and democracy for the United States and the members of the alliance since 1949.

(2) The unswerving resolve of the member states of the North Atlantic Treaty Organization to mutual defense against the threat of communist aggression was central to the demise of the Warsaw Pact.

(3) The North Atlantic Treaty Organization is the most successful international security organization in history, and is well suited to help marshal our cooperative political, diplomatic, economic, and humanitarian efforts, buttressed by credible military capability aimed at deterring conflict, and thus contributing to international peace and security.

(4) The threat of instability in Eastern and Central Europe, as well as in the Southern and Eastern Mediterranean, continues to pose a fundamental chaleenge to the interests of the member states of the North Atlantic Treaty Organization.

(5) North Atlantic Treaty Organization assets have been deployed in recent years for more than the territorial defense of alliance members; and the Rome Summit of October 1991 adopted a new strategic concept for the North Atlantic Treaty Organization that entertained the possibility of operations beyond the alliance's self-defense area.

(6) In Oslo in July 1992, and in Brussels in December 1992, the alliance embraced the deployment of North Atlantic Treaty Organization forces to peacekeeping operations under the auspices of the United Nations or the Conference on Security and Cooperation in Europe.

(7) The North Atlantic Treaty Organization should attempt to cooperate with and seek a mandate from international organizations such as the United Nations when considering responses to out of area crises.

(8) Not all members of the international community share a commonality of interests that would ensure timely action by the United Nations Security Council.

(9) The security interests of the member countries of the North Atlantic Treaty Organization must not be held hostage to indecision at the United Nations or a veto by a permanent member of the Security Council.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that—

(1) it should be the policy of the United States that, in accordance with article 53 of the United Nations Charter, the North Atlantic Treaty Organization retains the right of autonomy of action regarding missions in addition to collective defense should the United Nations Security Council or the Conference on Security and Cooperation in Europe fail to act;

(2) while it is desirable to work with other international organizations and arrangements where feasible in dealing with threats to the peace, the North Atlantic Treaty Organization is not an auxiliary to the United Nations or any other organization; and

(3) the member states of the North Atlantic Treaty Organization reserve the right to act collectively in defense of their vital interests.

SEC. 1098. LIMITATION ON OBLIGATION OF FUNDS FOR MARK-6 GUIDANCE SETS FOR TRIDENT II MISSILES.

(a) LIMITATION.—Until the certification in subsection (b) has been provided to the congressional defense committees, funds appropriated for fiscal year 1995 for the Navy may not be obligated to procure more than 14 Mark–6 guidance sets for Trident II missiles.

(b) CERTIFICATION.—Before the Secretary of Defense may obligate funds for Mark–6 guidance sets in addition to the 14 sets authorized in subsection (a), he shall certify to the congressional defense committees that failure to procure such additional units would pose an unacceptable risk to the long-term readiness and reliability of the Trident II missile program.

SEC. 1099. MILITARY PLANNING FOR THE SIZE AND STRUCTURE OF A FORCE REQUIRED FOR A MAJOR REGIONAL CONTINGENCY ON THE KOREAN PENINSULA.

(a) FINDINGS.—Congress finds as follows:

(1) Whereas the Administration commissioned the Bottom-Up Review to properly size and structure the Armed Forces of the United States for the Post-Cold-War Era;

(2) Whereas the Bottom-Up Review itself cites the need for the Armed Forces of the United States to be large enough to prevail in two major regional conflicts, similar in nature to the 1991 war against Iraq, "nearly simultaneously";

(3) Whereas the Bottom-Up Review gives special consideration to a scenario that hypothesizes that the two "nearly simultaneous" conflicts would occur in Korea and the Persian Gulf;

(4) Whereas the United States sent 7 Army divisions, the equivalent of 10 Air Force tactical fighter wings, 70 heavy bombers, 6 Navy aircraft carrier battle groups, and 5 Marine Corps brigades to the Persian Gulf to fight the war against Iraq;

(5) Whereas the Bottom-Up Review asserts that the forces needed to fight two conflicts similar to that with Iraq can be drawn from a total military force of between 15 and 16 Army divisions, 20 Air Force tactical fighter wings, 184 heavy bombers, 11 active Navy aircraft carriers (along with one reserve/training carrier), and the equivalent of 12 Marine Corp brigades;

(6) Whereas the Bottom-Up Review recognizes that approximately 100,000 members of the United States Armed Forces will be stationed in Europe;

(7) Whereas the Bottom-Up Review recognizes that sizeable numbers of United States

forces could be involved in peace enforcement and intervention operations at any one time;

(8) Whereas the Bottom-Up Review makes no specific recommendation as to the number of forces to be held in reserve to provide a rotation base either to relieve troops in the event one or both hypothetical conflicts result in lengthy deployments or to replace combat losses;

(9) Whereas military planners calculate that the number of United States forces needed to help defeat an invasion of South Korea by North Korea may exceed 430,000 United States military personnel;

(10) Whereas the size of the force military planners may request to help defend South Korea could exceed the levels that are consistent with the recommendations of Bottom-Up Review if the existing and future force requirements for a presence in Europe, possible peace enforcement operations, and an adequate rotation base, as well as a second regional conflict, must be fulfilled simultaneously.

(b) SENSE OF CONGRESS.—It is the Sense of Congress:

(1) that the force structure identified in the Bottom-Up Review may not be used to limit the size or structure of the force United States military commanders may request in preparation for a major regional contingency on the Korean peninsula;

(2) and that the Chairmen and Ranking Members of the House and Senate Committees on Armed Services and Chairmen and Ranking members of the House and Senate Appropriations Subcommittees on Defense should receive regular briefings from the Department of Defense of the situation on the Korean peninsula;

(3) and that the conclusions of the Bottom-Up Review should be continuously examined in light of the lessons learned from preparation for a major regional contingency on the Korean peninsula and from other military operations.
